VILLA JULIE COLLEGE 1986

ADMINISTRATION AND FACULTY

Carolyn Manuszak has been President of Villa Julie College since 1964. Prior to coming to the College, President Manuszak obtained her B.A. from Trinity College and her M.A. from the Catholic University. Subsequently she earned a J.D. from the University of Maryland.

Under President Manuszak's leadership, Villa Julie has grown from a one building, four classroom, two-year college, to a two and four-year college in modern buildings with housing capacity for more than a thousand students.

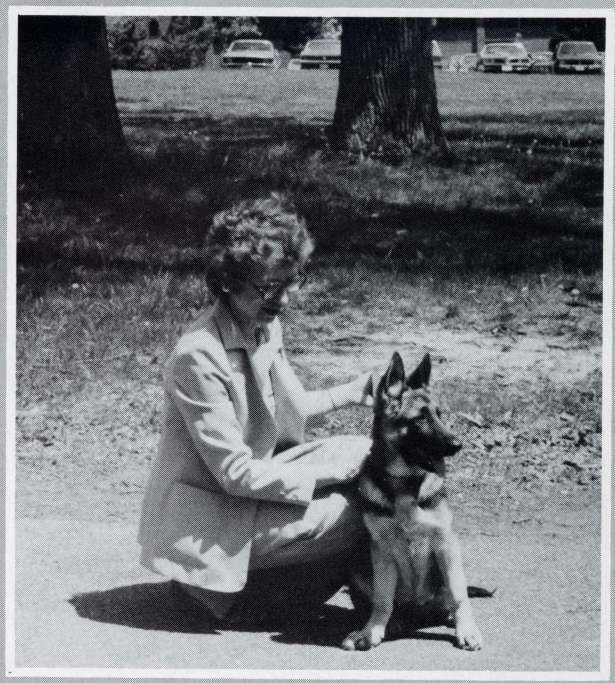
Although President Manuszak has witnessed many changes on campus, the biggest differences she has noted are in the students. "In general, they are much more realistic and serious about life than those of previous decades," she says. But there are certain qualities at the college which President Manuszak is certain will never change, such as Villa Julie's long tradition of respect for the individual student and the college's reputation for quality and high standards. Villa Julie's "continued responsiveness to the ever changing needs of students and the world for which we are preparing them will stay the same," she states.

As students are aware, the President has a very large, one year old German Sheperd, "Cara". What the students don't know is that she sometimes discusses some of her problems with Cara. President Manuszak claims that "Cara never betrays a confidence!"

On a more serious note, the President has some advice to incoming freshmen and outgoing seniors:

> "Be willing to dare to push to the very limits of your abilities, and then some. Be risk-takers, even if it means making a mistake now and then. Weigh the advantages against the disadvantages — and if the upside outweighs the downside, take a chance! Don't waste time being afraid. That's energy needlessly spent. Use your energy to do, and to become. Never do anything at the expense of someone else. Most of all, be kind to yourself; you are a one-of-a-kind irreplaceable individual, put on this earth to do what no one else in the world can. If you're not too hard on what you've done today or yesterday, and determined to go on and do better tomorrow — and if you remind yourself that other people have a hard time too — you'll be happy and successful; and you'll make a positive difference in your world. I have great confidence in each one of you. All of us here do. We'll be watching and rooting for you!"

President Carolyn Manuszak



A WINNING TEAM

Vice President and Dean
Rose Dawson

Rose Dawson, Vice President and Dean of Villa Julie has been at the College since 1965. Prior to coming to Villa Julie, she received her undergraduate degree from Trinity College, a M.S. from Fordham University, and a D.Ed. from Nova University. During the Dean's early years at the College, she ably handled the work of three persons: Admissions Officer, Registrar, and Dean.

Dean Dawson has experienced immense changes in the College over the past twenty-one years. She watched the College expand from two hundred students to over a thousand; from an all women's college to a co-educational institution; from a college offering only secretarial programs to one with over fifteen degree programs. One of the most recent changes has been the College's offering of four-year as well as two-year degree programs.

While Villa Julie continues to grow, Dean Dawson's wishes to retain the atmosphere of a small college, where students and faculty know one another and communicate easily.

Dean Dawson's advice to all students, whether incoming freshmen or outgoing seniors is, "live your life to the fullest. Come to the College prepared to learn and to live; to stretch your mind, to increase your knowledge, to welcome new experiences and through all the years to live your own life and contribute to the lives of others."

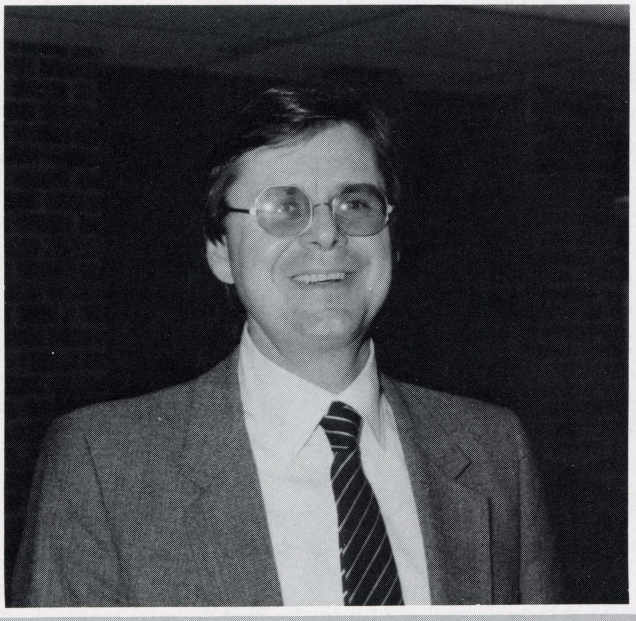
Mathematics

Nancy N. Bowers
Admissions Counselor



Michael Rogich

Michael B. Rogich, Assistant Professor and Chairman of the Computer Information Systems Division, has been with Villa Julie since 1982. Mike Rogich received his B.A. degree from Loyola College; his M.Ed. from The Johns Hopkins University; and J.D. from the University of Baltimore.

Mike currently teaches the software and programming portions of a CDP review course for the Data Processing Management Association. Mike's ten years of business experience includes all levels of business computing from Programmer to Project Manager for U.S.F. & G., Equitable Trust and Maryland National Bank.

Among Mike Rogich's many accomplishments during his four years at the college, perhaps the most important and far reaching are the implementation of an on-line MIS for administrative functions and the development of two and four-year programs in CIS.

Mike Rogich enjoys the small college atmosphere at Villa Julie. Larger colleges have difficulty giving students individual attention and seem very impersonal. He notices positive relationships between faculty and students at Villa Julie. This keeps Mike Rogich committed to our college.

In asking Mike Rogich what his advice would be to incoming freshmen and outgoing seniors, he said, "Understand your strengths and weaknesses, but present a positive, professional attitude and you will grow both personally and professionally." For incoming freshmen, he advises, "College begins your adult life. Be serious about whatever you do, because whatever you do here, will be carried with you for the rest of your life."
